PROJECTS

Ecommerce App

The E-commerce App provides all necessary capabilities for smooth online shopping. Users can explore and buy products through a simple yet responsive website design. Key features include:

- **Product Catalog:** Provides users with complete shopping options while they can sort and narrow down their choices.
- **Dynamic Cart Management:** The shopping cart lets users change item selection while showing correct price updates as they work.
- **Authentication:** Allows users to register and sign in securely through their sessions.

Real Time Weather App

The Weather App uses React useState and useEffect hook to create a website that shows accurate weather information from cities all around the globe. It Fetch weather data from OpenWeather API to show temperature, humidity, wind speed, and weather specifics. The app features:

- **Dynamic UI:** This system updates with new weather information while showing correct weather icon visuals for each condition.
- **Interactive Features:** Users can search for cities and reset their inputs while seeing updated weather numbers at all times and adds loading states during data retrieval.

Know Your Country

This react project is country exploration web app, in where user can search, sort, view details of country in the world. wecan have a full featured responsive UI, dynamic routing, and interactive search functionalities. The data is retrieved from the REST Countries API (https://restcountries.com/v3.1/all). The app core Features include :

- **Search & Auto-suggestions:** Users may search for the countries and even get the auto-suggestions in real-time while typing.
- **Sorting & Randomization:** Countries can be sorted (A-Z, Z-A) or displayed randomly.
- **Country Pages:** Users click on a country for detailed information such as flags, capitals, currencies, and regions.

EDUCATION

Institute of International Management Science(IIMS) | 2023-Present

Bachelor of Computer Science Major in Artificial Intelligence

- CGPA: 3.59
- Awarded with Dean List Award Every Semester

Millennium College | 2018-2020

Science Faculty

- GPA: 3.36

Skills

- HTML
- CSS
- Javascript
- React
- Express js
- Postman
- Python
- Mongodb and Basic SQL
- Communication Skill
- Problem Solving
- Creative Thinking
